

# STRIPPED AND CRATED MOTORS

## Stripped Motors

The 702 Model Stripped Motor with 723 Hub (for V arms) can be used to replace the corresponding parts of all Auto-Oiled Aermotors except the 502, and get the benefits of the Replaceable Bearings and the Larger Wheel Shaft. When necessary to replace either the Hub or Main Frame of an Auto-Oiled Aermotor, we recommend using this stripped motor.

Stripped Motor

A Stripped Motor includes the main frame, wheel hub, small gears, pitman guide and guide wheel. Stripped Motors are furnished with 703 or 723 Hubs as ordered.

Size of Mill	STRIPPED MOTORS			CRATED MOTORS		
	Price	Telegraph Name	Weight	Price	Telegraph Name	Weight
6-foot...	\$13.00	Xanthite	45	\$ 18.60	Xylopa	75
